

# PDSA Worksheet

---

## Purpose of Cycle:

## Plan

### The Change

- What change are we testing?
  
- Who are we testing the change on?
  
- When are we testing?

### Predictions

- What do we expect to happen?

### Data

- What data do we need to collect?
  
- Who will collect the data?
  
- When will the data be collected?

(continued)

## **Do**

- What was actually tested?
- Observations
- Problems

## **Study**

- Summarize what was learned
- Compare data to predictions

## **Act**

- What changes should we make before the next cycle?
- What will the next test be?
- Are we ready to implement the change more broadly?
